

DE SANGOSSE

Nutrition

Magnesium Extra

What is it?

An inorganic micronutrient for foliar application. Prevents and corrects Magnesium deficiency in all arable crops.

Hazard Warnings

R22: Harmful if swallowed.

R34: Causes burns.

R41: Risk of serious damage to eyes.

R48/20: Harmful: danger of serious damage to health by prolonged exposure through inhalation.

R52/53: Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment.

Formulation

A true liquid containing 9.9% w/w Magnesium (as MgO), 6.7% w/w N (as Nitric N).

Crops

Cereals, sugar beet, oilseed rape, potatoes, pulses

Best Use Guidelines

Maintain agitation throughout the spraying period and DO NOT allow the mix to stand for long periods before use.

Spraying equipment should be thoroughly cleaned and washed out with clean water after completion of spraying.

Application Rate

Deficiency Status	Application Rate
Maintenance	2.0 L/ha
Moderate	4.0 L/ha
Severe	4.0 L/ha and repeat

Water Volume

Apply between 100-300 litres/ha

Mixing Sequence

Pre-mixing is not necessary with Magnesium Extra.

Timings

Crop	Timing
Cereals	Tillering to GS 59
Sugar beet	4 true leaves onwards
Oilseed rape	4 true leaves onwards
Potatoes	Crop emergence onwards
Pulses	5cm in height onwards
Others	When leaf area is sufficient

Pack Size

10 litres and 1000L IBC's
